I'm glad to hear that people are interested in your advice. I could give you \$500 per week without raising any attention. Would that help?

About the testing facility, perhaps we could create a partnership. What if we had items from Silk Road delivered to you for testing? Would this be possible?

Well...that is very generous from you. For that help I would maintain my thread up to date answering questions in 24-48 hours as a maximum delay, and also answer all PM in 24-48 hours maximum. If there were no much work in my thread I would answer other interesting questions in the Drug Safety Forum.
I will be daily (as usual) in SR forum, except 29 Sept-13 Oct, I will be on holidays out of Spain and I think without TOR access.
When we have developed the International Service Test I will contact you again and explain it with detail, I'm sure we can find a way to collaborate.
Thank you very much again
DoctorX

do you have an account on SR? it would be easier for me to credit an account than send to an address. Also, why do people do PMs? Everyone is anonymous, so I would think it better to have all of the discussion in the open so everyone can benefit.
